

PUBLIC NOTICE

The Team members of project 802 are accepting public review and comments for a request for a variance from¹ Stormwater Management Quality and Quantity Requirements for Project 802 Located at 3817 Fleetwood Avenue in Baltimore, Maryland.

Notice is hereby given that the public is invited to comment on the request by the involved parties for a variance of Stormwater Management (SWM) quality control requirements for Project 802. Comments on the request for SWM Variance must be received by 5:00 pm on **July 17, 2010**, to ensure consideration by the Department.

The property owner proposes to construct one dwelling on the property, along with a two-car parking pad.

In order to meet the 2010 Baltimore City SWM Ordinance requirements for the proposed improvements, variances for stormwater management quality and quantity control are requested. A Water quantity variance is requested since the project runoff is captured and conveyed through public storm drain systems that leads to Herring Run.

¹ As pertains to the Baltimore City Stormwater Ordinance and Guidelines

Report

A copy of the Stormwater Management Report and Plans may be obtained by calling and making a request to Chris Rachuba Main Number: (443) 277-3137 or by visiting the office during normal business hours:
